PEERS

Towards a new generation of EU peer-to-peer energy communities facilitated by a gamified platform and empowered by user-centred energy trading mechanisms and business models.

This project has received funding from the European Union's H2020 framework programme for research and innovation under grant agreement no 890345.

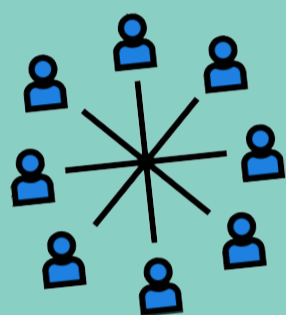

NRG2 PEERS

How do we want to establish and run real local energy communities?

Demonstrate that they are financially viable and attractive.

Stimulate and enable the co-creation, strengthening and widespread implementation.

Motivate and activate EU interest groups and national certifying and standardization bodies.

Enhance them to be more attractive, practical, reliable, understandable and desirable.

Make them easily accessible.

This project has received funding from the European Union's H2020 framework programme for research and innovation under grant agreement no 890345.
